

### **Memari College : A Glimpse:**

Memari College, a NAAC Accredited College, is one of the most reputed institutes of higher learning in West Bengal. It was out of the ardent and dedicated zeal of the educationalists of region and almost necessity of higher education for local and surrounding students that the College was established in the last phase of the last century. The College stands on a calm and quiet place encompassed by greenish natural boundaries far from the din and bustle of the semi-urban life. At present the physical infrastructure is spread over 11 (eleven) acre of beautiful campus covering state-of-the-art arrangement for creating a rich academic environment. The college has its own play ground and pond within its premises. The history of its establishment had undergone many protracted phases. Having suffered for about four decades of bittersweet quandaries, the college was born and began its journey on and from 16 December, 1981 in the nearby Memari Vidyasagar Memorial Institution, Unit-II, with only 51 students in B.A. Course. However, overcoming the initial hurdles of the construction of its dedicated building, the College was shifted to its own building in May 1985. The construction of building was accelerated with the financial assistance from U.G.C., the Govt. of West Bengal and generous donations by the local business community as well as common people, teaching, non-teaching & students of the College. Now it caters to the educational needs of more than 5300 students in three main Streams: Arts, Commerce & Science as well as professional one, like Computer Science. Having passed through ups and downs, the College has now attained its glorious position with prestigious NAAC Accreditation.

### **Memari College : Vision & Mission:**

The College is highly successful in spreading higher education in this remote rural economically backward region where there is no college within a periphery of around 21(twenty one) Km. As a result, a large number of students, along with female candidates who had no opportunity to avail themselves of entering into the corridors of higher education from the families of landless farmers, daily wage earners and so on, may afford to be initiated into the higher education from the College. The College is motivated to encourage and spread higher education amongst the youth and thereby enlighten and enabling them to develop a scientific approach to life immune from prejudice and allied ills of the society. The College has achieved a dignified niche in the varsity by virtue of catering to the needs of the people in respect of education, training, employment access and equal opportunity in courses of its judicious functioning.
